

I specialize in natural light photography and like to do shoots on locations, I am not a studio photographer and believe photos taken in a natural setting is worth a lot more words that set up studio work.

A quick guide to the gallery

If you click and hold down you can move the thumbnail view, you can click on any image, which will enlarge it, you can then either click on it again to go back to the thumbnail view, or start the slideshow by pressing the play button in the middle, you can also move between images by using the arrows
